ASSET ALLOCATION

REGIONAL ALLOCATION

INVESTMENT STRATEGY

Overview: The aim of the TPC Income model is to provide income, that is money paid out from investments such as dividends from shares and interest from bonds. The TPC Income model will be actively managed, on a low medium risk strategy. It will aim to maintain an internal risk rating classification of 5.

Objective: The aim of the TPC Income model is to provide income, that is money paid out from investments such as dividends from shares and interest from bonds, with the potential for some increase, over a minimum of 5 years, in the value of an investment. The TPC Income Portfolio will also aim to provide an average annual income in excess of inflation (as determined by the UK Consumer Price Index) by 1%, over any 5-year period on a rolling basis. However, there is no guarantee this will be achieved.

Policy: The TPC income model will be actively managed, on a low medium risk strategy. It will aim to maintain an internal risk rating classification of 5. The risk rating range is from 1 (lowest risk) to 10 (highest risk). This range is utilised across the whole of our investment proposition. The model will invest in a number of different asset classes across global markets, including shares in companies, bonds, property and commodities.

ABOUT TAVISTOCK PRIVATE CLIENT

Tavistock Private Client has been successfully investing and managing client money for over 10 years. Funds under advice exceed £400 million (as at 1st December 2019). Our aim is simple: to provide independent and professional portfolio management at highly competitive rates. TPC Model Portfolios are appropriate for a wide range of investors, including private clients, pensions, trusts, companies and charities.

TPC MODEL PORTFOLIOS

The TPC Model Portfolios target specific levels of volatility and are matched to a client's attitude to risk. Our approach aims to reduce costs and outperform our benchmark. Clients will benefit from a competitive, transparent charging structure, on-going active portfolio management and online access to their portfolios 24 hours a day.

INVESTMENT PHILOSOPHY

The fund management industry has experienced significant change in the last quarter of a century. Product innovation has enabled investors to benefit from wider exposure to global financial markets with far greater efficiency and at a lower cost. Index-tracking investments such as Exchange Traded Funds (ETF) and Index-Tracking Funds have grown increasingly important and may therefore form a part of the portfolio construction.

INVESTMENT STRATEGY

TPC Model Portfolios are medium to long term investments (5 years or more) and are not suitable for money which might be needed in the short term.

PEER GROUP

Although the PROFILE is not benchmarked against the IA sector one may wish to compare the performance of TPC Income to the 20-60% IA Sector for peer group analysis.

INVESTMENT TEAM

The Tavistock Asset Management Investment Committee carries direct responsibility for all discretionary investments at the firm. The principal focus of the committee is to monitor the performance of each investment solution within the Centralised Investment Proposition (CIP) against its stated investment objectives, target market and long-term return objective versus its peer group.

ABOUT TAVISTOCK ASSET MANAGEMENT

Tavistock Asset Management (TAM) is authorised and regulated by the Financial Conduct Authority to provide Discretionary Fund Management (FRN: 955719). Tavistock Asset Management Limited is a wholly owned subsidiary of Tavistock Investments Plc. TAM manage over £1bn of assets on behalf of all clients, aiming to provide private clients with access to institutional quality portfolio management at a retail price. TAM's model portfolios provide individual investors with the benefit of collective buying power to ensure that the charges they incur for model portfolio management, platform fees and dealing are amongst the lowest in the industry. Currently, Tavistock has over 175 financial advisers helping 50,000+ private clients look after more than £3.5bn of investments.

MANAGER COMMENTARY

Equity markets continued to rise for the fifth consecutive month and started to broaden out with moderate returns across regions. The US and Japan extended their strong start to the year, with the S&P 500 up 3.22% and the Nikkei 225 up 3.17%. Following a slower start to the year, UK equities were up 4.84% after a modest expansion in GDP. Emerging markets underperformed its developed market peers, up 2.50%, suppressed by subdued Chinese equity performance. The Shanghai Shenzhen 300 index was up just 0.61%.

In fixed income, most developed markets left their interest rates unchanged hinting towards interest rate cuts later in the year. Yields remained relatively flat across the month, with the 10-year US Treasury Yield falling 5bps to 4.2% and the 10-year UK Gilt yield down 19bps to 3.9%. The Bloomberg Global Aggregate Index was up 0.55%, and the Bloomberg Global High Yield Index rose 1.51%

Commodities had a strong month with the Bloomberg Commodity index up 2.89%. Precious metals were notable outperformers with Gold prices up 9.08%, breaching 2,200 \$/lbs, and Silver prices up 10.09%. Oil prices rose nearly 5% to \$87.48 per barrel (Brent) due to Opec production cuts, rising geopolitical tensions and stronger demand.
